Product specifications	
Product description	THERA-Trainer coro is a non-powered training device that provides a safe environment to train standing and balancing (postural control) and generally redevelop muscles.
Special product features	<ul style="list-style-type: none"> - Two training devices in one: Enables task-oriented, dynamic and safe training of postural control (dynamic training) as well as fast and easy verticalisation (rigid standing training). - Training postural control in a fall-safe environment: Postural control forms the basis of all day-to-day activities. This central concern (rehabilitation) can be trained effectively through repetitive training at the performance limit. No risk of falling as the body is secured in a standing position. - Quick and easy cleaning: Due to smooth surfaces, thorough cleaning and disinfection possible. - Individually adjustable: Easy and quick adjustment to the user's individual needs without tools. - Future-oriented treatment: The THERA-Trainer coro can be integrated into a THERA-Trainer complete solution at any time.
Place of use	Suitable for use in enclosed spaces in facilities e.g. clinics, nursing homes, therapy practices
