The compact leg and upper body exerciser with motor

mobi 540

Product specifications		
Product description	THERA-Trainer mobi is a powered training device using cyclical movement actively and/or passively mobilizing the upper or lower extremities to redevelop muscles, restore motion to joints and improve the cardiovascular function.	
Special product features	 START/STOP traffic light control: Start and stop training with one press of a button. Foot rests with safety edge and velcro straps to secure the foot: Ensure a safe workout through optimal support and without foot slippage. Very good stability and slip resistance: Enables safe training without constant slipping. Quick and easy cleaning: Due to smooth surfaces, thorough cleaning and disinfection possible. Tool-free replacement of foot rests and therapy grips: Enables quick and easy adaptation to different treatment settings and therapy goals. Future-oriented treatment: The THERA-Trainer mobi can be integrated into a THERA-Trainer complete solution at any time. 	
Place of use	Suitable for use in enclosed spaces in facilities e.g. clinics, nursing homes, therapy practices or at the patient's home	
Technical specification	- Dimensions (L/W/H): approx. 50 / 46 cm - 56 / 43 cm - Weight: approx. 13.2 kg (with foot rests) or 12.1 kg (with therapy grips) - Electric motor: Nominal power = 100 watts, continuous power = 50 watts - Power connection: 1x 100-240 V, 50/60 Hz - Protection class: II - Degree of protection: Type BF - Protection category: IP 21 - Ambient conditions when in use: Temperature: 5 °C to 40 °C Relative humidity: 15 % to 93 % Rh Air pressure: 700 hPa to 1060 hPa - Sound emission: LpA < 70 dB (A) - Service life: 7 years	
Compatibility	THERA-soft	
Patient requirements	- Patient weight: max. 140 kg - Patient height: 120 - 200 cm	
Delivery and commissioning	- Packaging (L/W/H): 56 / 46 / 40 cm - Delivery: usually Package via parcel service - Transport and storage conditions: Temperature: -25 °C to 70 °C Relative humidity: 15 % to 93 % Rh Air pressure: 700 hPa to 1060 hPa - Commissioning: by authorised specialists (recommended)	
Service / Maintenance	 Service: only by authorised service technicians Maintenance: maintenance-free Technical inspection: safety inspection every 24 months (manufacturer recommendation) 	
Registration	- Medical device class: Ila - CE marking: CE0297
