THERA-Trainer toro[®]

Next level motor-assisted cycling

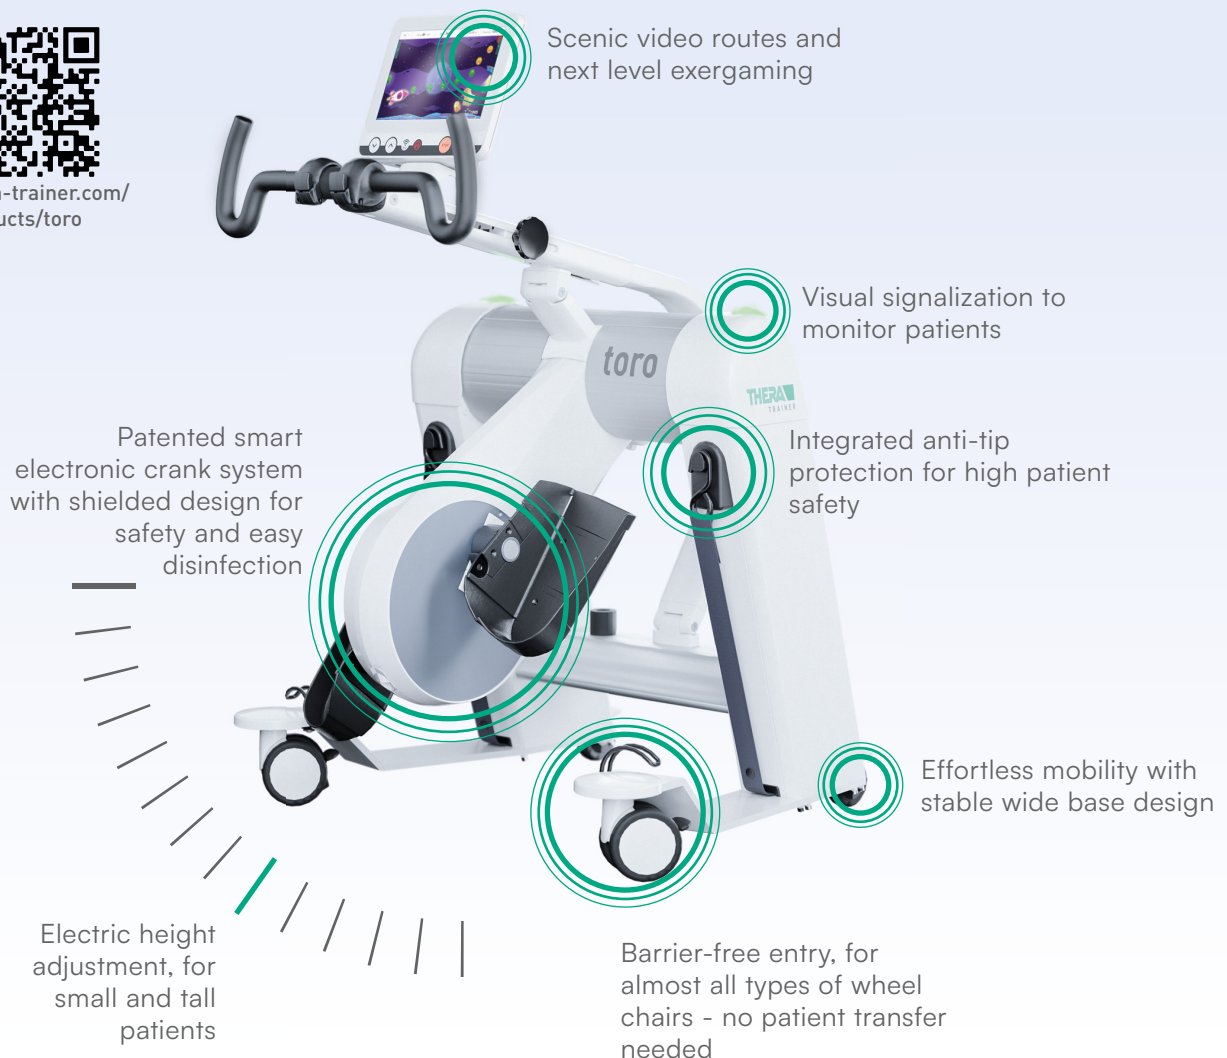

For upper and lower extremity, with advanced software
and astonishingly high performance

Motor-assisted cycling therapy, 100% made for professionals

- ✓ **Next level design**
We have created THERA-Trainer toro's revolutionary shape from scratch. Designed 100% for professionals. Designed for you.
- ✓ **Next level gamification and scenic video routes**
THERA-Trainer toro's enjoyable, interactive games and video routes may encourage participation, better compliance, and increases satisfaction as a basis for improved therapy results.
- ✓ **Next level ease of use**
Imagine doing every single action and adjustment with just a single click. One click to mount accessories. One click for height adjustments. One click to secure the patient. One click to select the perfect training type. One click to start the therapy.
