

THERA
TRAINER

CYCLING

THERA-Trainer toro[®]

The next-level robotic-assisted cycling system for functional recovery of a wide spectrum of patients — designed exclusively for professionals.

L I F E I N M O T I O N

Next-level technology, advanced software and astonishing high performance.

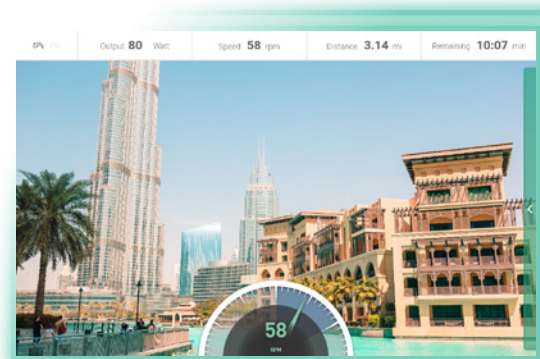

We have created toro's revolutionary shape from scratch — to best fulfill professional requirements without compromise for a one-of-a-kind experience specifically for professionals. With built-in safety features, toro is super easy to use: One click to secure the patient. One click to select the perfect training type. One click to start the therapy.

Use goal-oriented gamification and scenic video routes to encourage patient's motivation and engagement — including meaningful documentation to track therapy progress and outcome.

Explore the ultimate new toro experience

“The toro is a cycling device that meets the needs of therapists and is easy to use. It’s a joy to have a toro. Patients love the device too - especially the simple and motivating software.”

Vanessa Haug
 Sports scientist, Agapelson Bethesda Klinik Ulm

Scenic video routes, assessments, goal-oriented gamification and documentation

Powerful motor for smooth transition from passive-assistive to active 250 watts peak input

Patented smart electronic crank system with shielded design for safety and easy disinfection

Visual signalization to monitor patients

Integrated anti-tip protection for high patient safety

Effortless mobility with stable wide base design

One click everywhere. With electronic height adjustment for short and tall patients.

Barrier-free entry, for almost all types of wheelchairs - no patient transfer needed.

Next level ease of use, with builtin safety features. Extremely fast, easy and tool-free setup.

Your individual solution

THERA-Trainer complete solutions are the consistent implementation of evidence-based, clinically proven rehabilitation pathways, using advanced robotic-assisted technology.

We will help you to find the perfect combination of our THERA-Trainer products for your requirements, whether you work in acute care, rehabilitation, inpatient or outpatient care or any other setting.

- ✓ More therapy time per patient without extra staff
- ✓ Increased therapy intensity as a basis for better outcomes
- ✓ Improved cost efficiency through optimised resource allocation
